/\* Going into Project Directory \*/

C:\Users\HP>cd C:\Users\HP\Documents\WADL\Project

/\* Initializing a node project \*/

C:\Users\HP\Documents\WADL\Project>npm init

This utility will walk you through creating a package.json file.

It only covers the most common items, and tries to guess sensible defaults.

See `npm help init` for definitive documentation on these fields  
and exactly what they do.

Use `npm install <pkg>` afterwards to install a package and  
save it as a dependency in the package.json file.

Press ^C at any time to quit.

package name: (project)

version: (1.0.0)

description:

git repository:

keywords:

author:

license: (ISC)

About to write to C:\Users\HP\Documents\WADL\Project\package.json:

```
{
  "name": "project",
  "version": "1.0.0",
  "main": "server.js",
  "scripts": {
    "test": "echo \"Error: no test specified\" && exit 1",
    "start": "node server.js"
  },
  "author": "",
  "license": "ISC",
  "dependencies": {
  },
  "description": ""
}
```

Is this OK? (yes) yes

/\* Installing all Dependencies\*/

```
C:\Users\HP\Documents\Node.js-Express-MongoDB-CRUD-master\project>npm install -g body-parser
```

added 30 packages in 2s

6 packages are looking for funding  
run `npm fund` for details

```
C:\Users\HP\Documents\Node.js-Express-MongoDB-CRUD-master\project>npm install -g express
```

added 57 packages in 1s

7 packages are looking for funding  
run `npm fund` for details

```
C:\Users\HP\Documents\Node.js-Express-MongoDB-CRUD-master\project>npm install -g express-handlebars
```

added 48 packages in 4s

14 packages are looking for funding  
run `npm fund` for details

```
C:\Users\HP\Documents\WADL\Project>npm i mongoose@5.3.4
```

npm WARN old lockfile

npm WARN old lockfile The package-lock.json file was created with an old version of npm,

npm WARN old lockfile so supplemental metadata must be fetched from the registry.

npm WARN old lockfile

npm WARN old lockfile This is a one-time fix-up, please be patient...

npm WARN old lockfile

npm WARN deprecated bson@1.0.9: Fixed a critical issue with BSON serialization documented in CVE-2019-2391, see <https://bit.ly/2KcpXdo> for more details

npm WARN deprecated bson@1.1.0: Fixed a critical issue with BSON serialization documented in CVE-2019-2391, see <https://bit.ly/2KcpXdo> for more details

added 98 packages, and audited 99 packages in 4s

15 vulnerabilities (2 moderate, 7 high, 6 critical)

To address issues that do not require attention, run:

npm audit fix

To address all issues (including breaking changes), run:

npm audit fix --force

Run `npm audit` for details.

/\* Running server.js file \*/

C:\Users\HP\Documents\Node.js-Express-MongoDB-CRUD-master\project>node server.js

(node:12864) Warning: Accessing non-existent property 'count' of module exports inside circular dependency

(Use `node --trace-warnings ...` to show where the warning was created)
